- **Help state CAPS committees**

What do commodity surveys mean for the ER?

Variation on what we are already doing but
with several added benefits...

- Standardize survey protocols
- Provides a more complete data set
- Help state CAPS committees
- **Efficient utilization of CAPS dollars**

Emphasis on commodity-based surveys

- **Focus on economically important crops**
- **Should include as many pests as possible**
- **Should be useful to many states**

Plans for FY07

- Citrus
- Soybeans
- Small grains
- Forests

Soybean aphid

Plans for FY08

- Cotton
- Corn
- Fruit trees
- Vineyards
- ?

Tropical Spiderwort in Cotton

How will these surveys be implemented?
